RNT FDA Braid

Clear Braid Reinforced PVC Hose

Physical Properties**

	RNT FDA BRAID	INDUSTRIAL BRAID
Hardness, Shore A ± 5	80	80
Tensile Strength, psi	2500	2600
Elongation at Break, %	320	390
Brittle Temperature, °F	-50	-22
Max. Operating Temp., °F	175	185

** Values listed are typical and are meant only as a guide to aid in design. Field testing should be performed to find the actual values for your application.

RNT FDA BRAID – Reinforced Non-Toxic Braid

ID (IN.)	OD (IN.)	WALL	STANDARD LENGTH (FT.)	WORKING PSI AT 70°F	BURST PSI AT 70°F	LBS. PER 100 FT.	PART NO.

2	2-1/2	.25	50, 100	133	399	95.02	4490

Product samples are available upon request.

- Made from non-toxic ingredients conforming to FDA standards
- Made of first quality industrial grade PVC
- Crystal clear for visual contact
- Super smooth interior permits outstanding flow characteristics
- FDA BRAID is reinforced with polyester yarn bonded within the walls for increased pressure capability
- Provides higher pressure capabilities than unreinforced PVC tubing
- Corrosion and abrasion resistant with flexibility similar to rubber but with much longer life

RNT FDA BRAID is made from non-toxic ingredients sanctioned by the Food and Drug Administration (FDA). **It is non-contaminating in odor or taste.**

RNT FDA BRAID is generally unaffected by most oxidizing and reducing agents. Diluted acids and alkalis have little effect, though if highly concentrated tend to make the hose less pliable. If chemical resistance is of major concern, in-plant tests are suggested.

Although RNT FDA BRAID may be used for fuel and oil applications, gasoline and petroleum-based oils will eventually harden the material.
